

Barry Fradkin

Assessing Economic Impacts of Drought in Sub-Saharan Africa using Open Geospatial Data

Mr. Fradkin specializes in geospatial analysis, hydrologic modeling, scenario planning, and hazard risk assessment. He has developed regional and urban growth projections and hazard vulnerability models in developing countries, and continues to research spatial analysis of the socio-economic and environmental impacts of climate change, natural disasters, and rapid urbanization. Mr. Fradkin received his Masters in Environmental Science from the University of Massachusetts Boston, and is a certified Geographic Information Systems Professional.
