

Iver Thysen

Title of presentation:

Strengthen the uptake of ICT by farmers by European Collaboration

Bio:

Iver Thysen holds a M.Sc in Animal production and a Ph.D. in Operation Analysis. From 1973 to 2009 he worked as a researcher in several amalgamating Danish research organisations, finally Aarhus University, on information technology and decision support. He was coordinator of an EU concerted action (ENITA, 1994-1998) on IT in agriculture, and cofounder and first president of EFITA. Since 2009 Iver Thysen has worked as scientific adviser for the coordinator of ICT-AGRI.
